

final presentation pms

Software Engineering and Design

Dozenten

Prof. Dr. Jürgen Vogel

Prof. Künzler Urs

Mitglieder

Andreas Krebs | Cyrill Bolliger | Lorenz Bischof | Martin Scheck

Matthias Keller | Raphael Schmid | Stephan Fahrer

Klasse

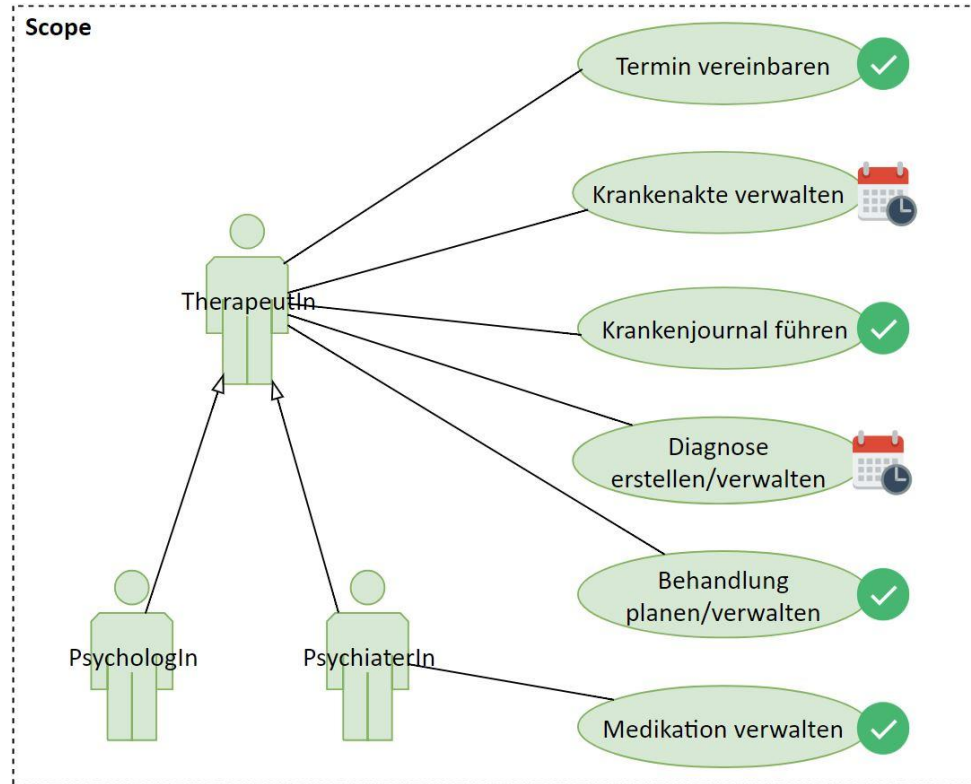

I2p

content

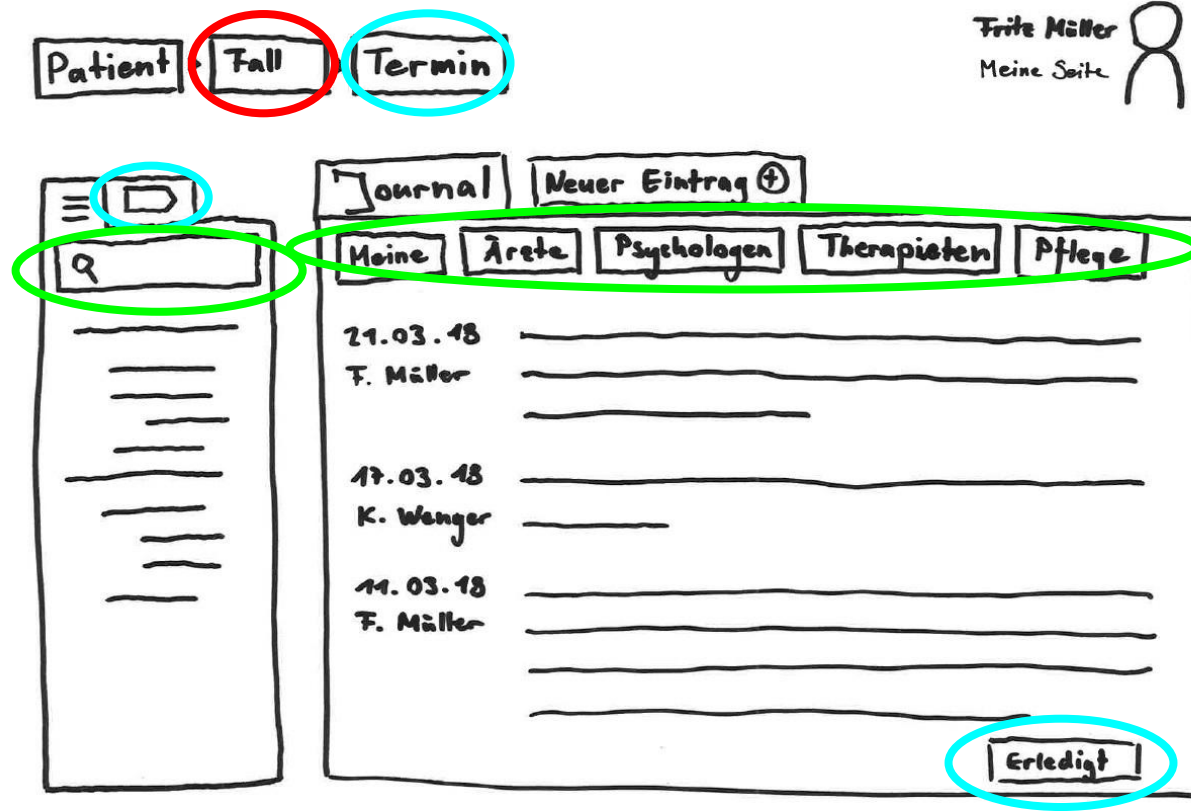

- demo of the application
- features implemented vs. design thinking ideas
- architecture & coding highlights
- list of contributions
- lessons learnt

demo

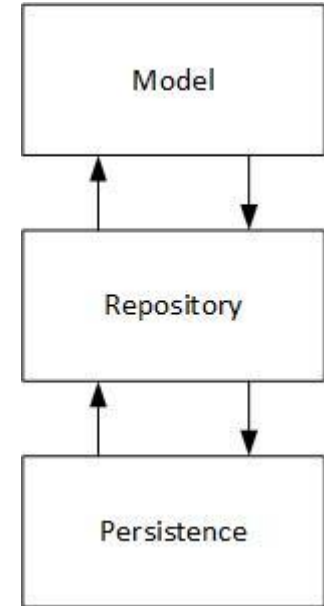

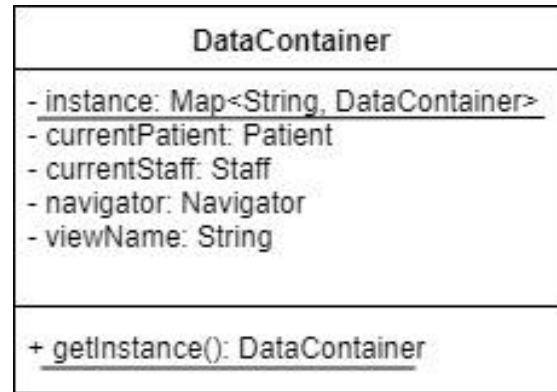

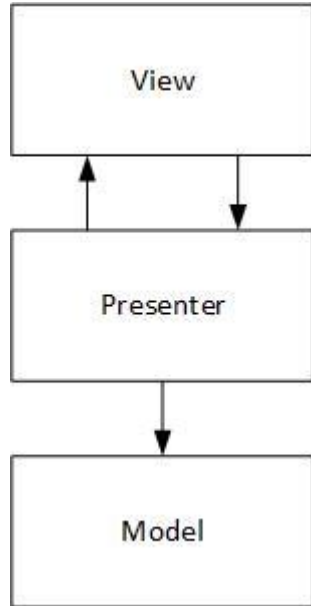

features implemented vs. design thinking ideas I

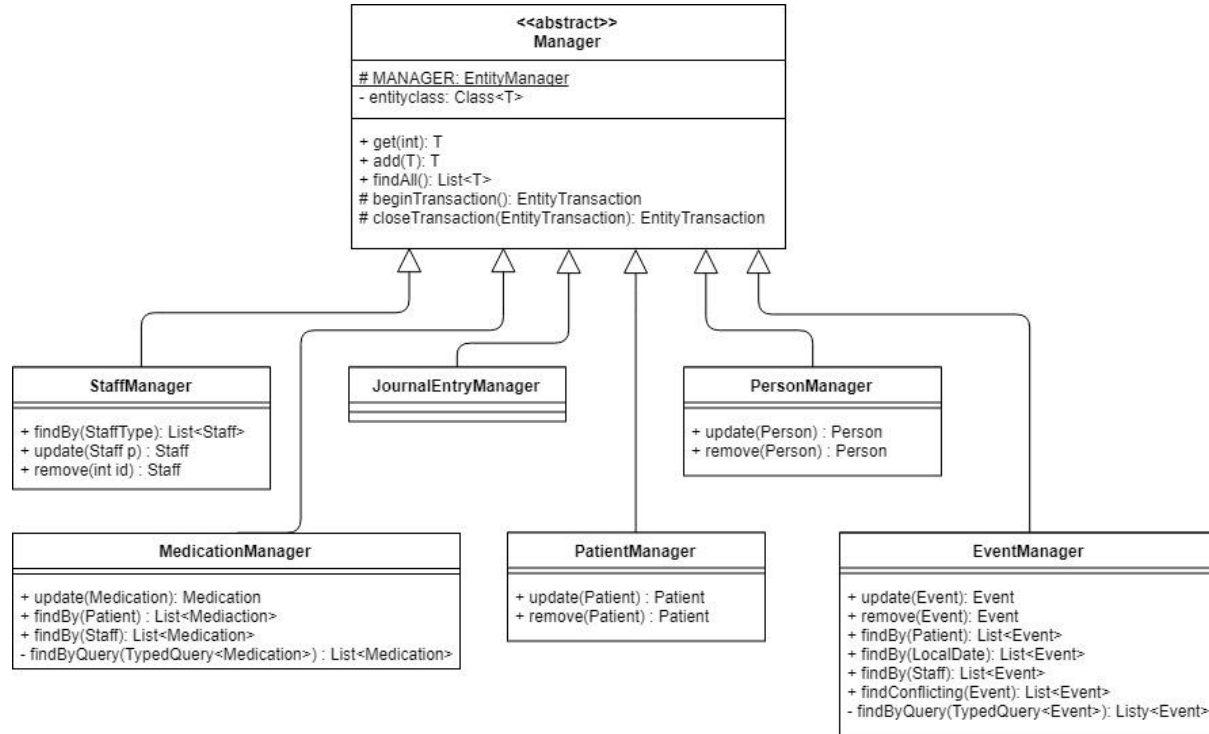

features implemented vs. design thinking ideas II

architecture & coding highlights - patterns

architecture & coding highlights - repository layer

architecture & coding highlights - data container

DataContainer
<ul style="list-style-type: none">- <u>instance: Map<String, DataContainer></u>- currentPatient: Patient- currentStaff: Staff- navigator: Navigator- viewName: String
<ul style="list-style-type: none">+ <u>getInstance(): DataContainer</u>

list of contributions

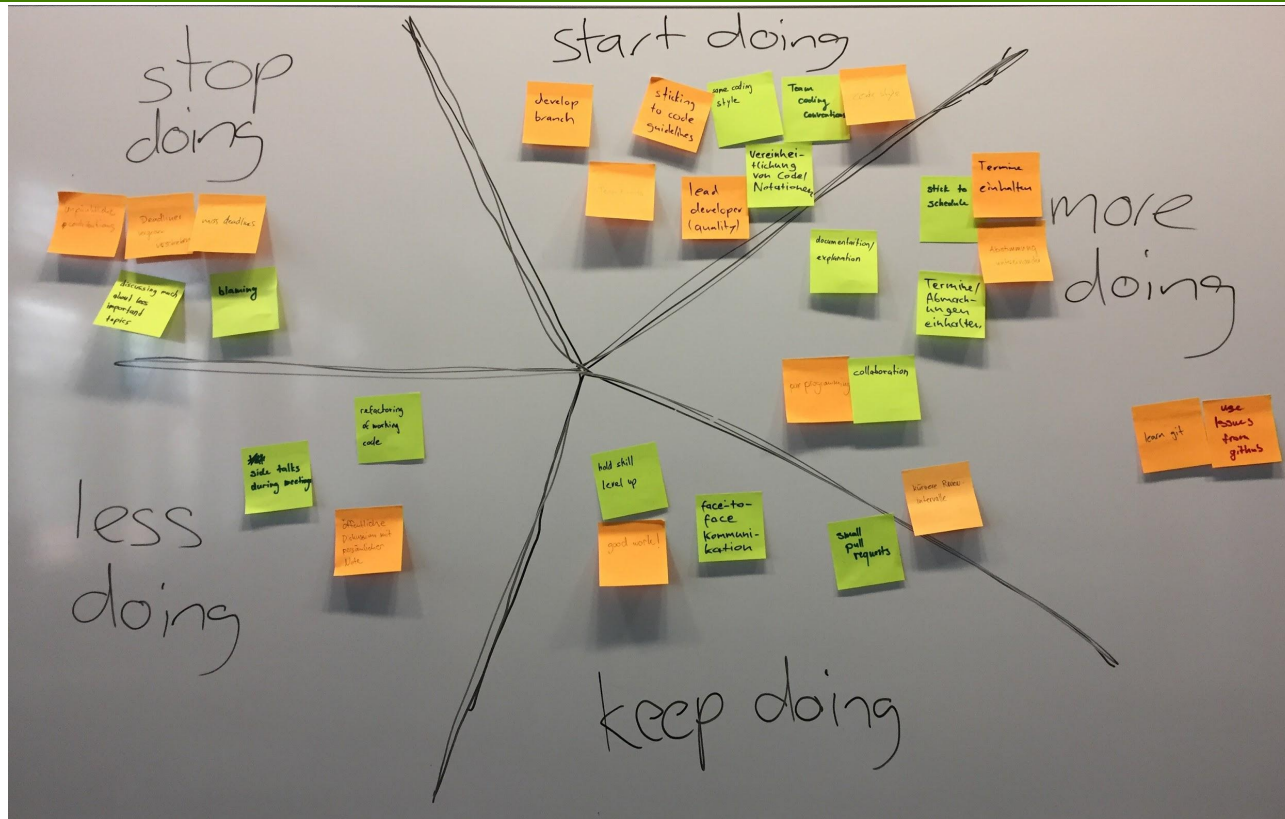

front-end developers

Andreas Krebs | Lorenz Bischof | Stephan Fahrer

back-end developers

Cyrill Bolliger | Martin Scheck | Matthias Keller | Raphael Schmid

lessons learnt - retrospective

questions
